

TANKLESS WATER HEATERS

Time is Money.

Save Both with
Tankless Water Heaters.

Driven by Pure Performance

A gift from the Himalayas, the Zānskar River is a source of life, and a symbol of purity and never ebbing energy. That's the stuff we're made of – **Pure Performance.**

At a time of global change, we believe that water, air and energy are integral to life and that these, can and should be made accessible to everyone, in its purest form.

We bring you a range of products and solutions for the home, which are designed in India placing highest importance on performance and customer experience.

And like the Zānskar valley, with conservation in mind, we acknowledge the beauty and fragility of the ecosystems we live in and promise to enhance ones quality of life with thoughtful products and services.

Our mission is to bring
you Pure Performance in

INNOVATION

PRODUCT DESIGN
AND QUALITY

What is a tankless water heater?

Tankless water heaters as the name suggests do not have a tank hence no storage. They heat the water on demand when you turn on the tap.

Lack of water storage avoids expensive heat losses resulting in savings in energy and maximum convenience for users.

Why tankless water heaters are a smart choice for your home?

Saves Power

Saves Time

Saves Space

Provides unlimited supply of hot water

An energy efficient addition to your home

Why the Zanskar tankless water heater?

Nickel-Chromium heating elements for efficient heating

High resistance to hard water

Auto memory function

2 Way Installation
