Z ZĀNSKAR®

What is a tankless water heater really?

Tankless water heaters as the name suggests do not have a tank hence no storage. They heat the water on demand when you turn on the tap.

Lack of water storage avoids expensive heat losses resulting in savings in energy and maximum convenience for users.

Why tankless water heaters are a smart choice for your home?

Saves Power

Saves Time

Saves Space

Provides unlimited supply of hot water

An energy efficient addition to your home

How does the tankless water heater work?

Appliance turns off as soon as the tap is turned off. No power is consumed until the hot water tap is turned back on

Why the Zanskar tankless water heater?

Nickel-Chromium heating elements for efficient heating

2 Way Installation

High resistance

to Hard Water due to Patented Heating Module in Stainless Steel

Auto memory function

Operates on maximum efficiency. Runs on minimal energy.

The ERP (or Energy Related Products Directive) is a European legislation. The energy efficiency of a appliance is rated in terms of a set of energy efficiency classes from A to G on the label, A being the most energy efficient, G the least efficient.

Zanskar Hotspring™ Tankless water heaters have a Class A rating and consume the least energy – making them as energy efficient as similar European water heating appliances.

Our Story

We are a team of experienced individuals in the water solutions industry who believe that pure air, energy and water can and should be made accessible to everyone, in its purest form and on a sustainable basis.

OUR DESIGN PHILOSOPHY

Inspired by an enduring land that has stood the test of time, we promise you nothing but the most reliable and well designed appliances for your home.

Cutting Edge Design

Like the mighty Zānskar river, above an under-current of strong performance our design is smooth and dynamic on the surface.

With lines that flow into a smooth confluence, you'll see beauty in our uniqueness

**Designed in
India for India**

Highest Quality Materials

From the copper accents on our appliances or the high quality stainless steel used in the heating modules, Zānskar products too will age timelessly with your home.

Finesse. Handcrafted.

One piece per day, one craftsman. That's the degree of personalisation and handcrafted detailing we like to follow for our heat pumps. Technology, that's special and bespoke.

Designed in and for India, certified for the world, our designs speak the universal language of eternal balance – between form and function.

THE NATION. HOPE YOU ENJOYED THE RIDE
